*Samoa Nature Planner*

English & Gagana Samoa

Illustrated with original artwork inspired by Samoa's teuila, manumea, waterfalls and lagoons. Every month pairs a Samoan proverb with its English meaning.

# How to Use This Planner

## *Fa'aaogaga o Ienei Kalena*

Each month opens with a calendar page — space for a monthly goal list, a full weekly grid with room to jot a line under any date, and Samoan holidays marked in coral. A lined notes page follows every month for longer thoughts, lists, or planning.

**Fugala'au**

**Manu**

**Afu**

**Matafaga**

**Aso Sā** (Sunday) is traditionally a sacred day of rest in Samoa, and is marked throughout this planner. Public holidays and cultural observances (**Aso Malolo**) are flagged directly on their date.

# Ancient Samoa & Fa'a Samoa

Samoa is among the oldest Polynesian cultures on Earth. Austronesian voyagers are believed to have settled the archipelago roughly 3,000 years ago, part of the same Lapita seafaring culture that carried pottery and settlement across the Pacific.

Long before European contact, Samoan society had already developed the matai system — a structure of chiefly titles (matai) held by heads of extended families (aiga), who govern local affairs through the fono, a council of chiefs. This system, together with the values summed up as fa'a Samoa ('the Samoan way'), still shapes daily life today.

Traditional architecture centres on the fale, an open-sided, oval house built without walls to stay cool in the tropical climate. Another enduring tradition is the tatau, an intricate hand-tapped tattoo — the pe'a for men and the malu for women — applied with ancient tools and regarded as a mark of great honour and endurance.

## European Contact & Colonial Era

Dutch explorer Jacob Roggeveen is credited as the first European to sight the Samoan islands, in 1722. Decades later, French navigator Louis-Antoine de Bougainville named them the 'Navigator Islands' after encountering Samoans' remarkable ocean-going canoes.

Christian missionaries arrived in the 1830s, led by John Williams of the London Missionary Society. Within a few decades Christianity had become deeply woven into Samoan life — a place it still holds today, alongside fa'a Samoa.

By the late 1800s, Germany, the United States, and Britain were all vying for influence in Samoa. The rivalry was settled by the Tripartite Convention of 1899, which split the archipelago in two: the western islands became German Samoa, while the eastern islands (Tutuila and the Manu'a group) became American Samoa, a U.S. territory to this day.

# The Mau Movement & Independence

New Zealand took control of German Samoa in 1914, at the outbreak of the First World War. Colonial rule was met with growing resistance, especially after 1918, when a New Zealand ship carrying influenza was allowed to dock — sparking an epidemic that killed roughly a fifth of the population.

The Mau ('firm opinion') movement emerged in the 1920s as a peaceful campaign for self-government. On 28 December 1929 — remembered as Black Saturday — New Zealand police opened fire on an unarmed Mau march in Apia, killing several people, including the paramount chief Tupua Tamasese Lealofi III.

Western Samoa achieved independence on 1 January 1962, the first Pacific Island nation to do so in the twentieth century. It became known simply as 'Samoa' after a 1997 constitutional amendment, while American Samoa remains a U.S. territory in the eastern islands.

# Tagaloa, the Creator

In Samoan tradition, the god Tagaloa (also called Tagaloa-a-lagi, 'Tagaloa of the heavens') is the supreme creator — said to have shaped the sky, the sea, and the islands out of nothing, then formed the first people from rocks sent down from the heavens.

Many chiefly genealogies and place names across Samoa trace back to Tagaloa's descendants, and his name still appears throughout Samoan oratory and legend as the origin point of the created world.

## Sina and the Eel

One of Polynesia's best-loved legends tells of a young woman named Sina, who found and raised a small eel in a pool of water. As the eel grew, so did its devotion to her — until, grown enormous, it confessed its love, and, sensing its own death was near, asked Sina to bury its head once it died.

Sina did as it asked. From the buried head grew the first coconut tree. Even today, the two 'eyes' and 'mouth' on the shell of a coconut are said to be the eel's face — so that every time someone drinks from a coconut, they share a kiss with Sina's faithful eel.

# Nafanua, the Warrior Goddess

Nafanua is remembered in Samoan legend as a formidable warrior goddess, daughter of Saveasi'uleo, ruler of the spirit world of Pulumotu. Raised in secrecy, she grew into a powerful leader who took up arms and led an army to victory in battle, ending the rule of an oppressive chief.

In many tellings, it is Nafanua who oversaw the distribution of the great chiefly titles that still anchor Samoa's matai system today, making her one of the most significant figures in the islands' oral history.

# The Meaning of ‘Samoa’

The origin of the name ‘Samoa’ is not settled, and several traditional explanations are told across the islands. One widely shared account links it to sa (sacred, or ‘belonging to’) and moa (centre, or a reference to the god Moa) — read together as ‘sacred centre’. Other tellings connect it to moa, the word for the domestic fowl once central to daily life.

Whichever telling is followed, the name has carried the islands’ identity for centuries. Long before written history, Samoa’s story was — and still is — kept alive through spoken legend, passed from one generation to the next.

# Aiga & the Matai System

At the heart of Samoan life is the aiga — the extended family, which reaches far beyond parents and children to include grandparents, aunts, uncles, cousins, and in-laws, often sharing land, work, and daily life together.

Each aiga is led by one or more matai, chiefs chosen — not simply inherited — from within the extended family for their service and wisdom. A matai represents the family in the village fono (council of chiefs) and is responsible for its wellbeing, its land, and its standing in the community.

Respect for elders and for the matai runs through nearly every part of daily life, from where someone sits in a fale to how a conversation is opened. Children are commonly raised communally, cared for by aunts, uncles, and grandparents as much as by parents.

## Fa'alavelave & Family Life

Fa'alavelave refers to the important events — weddings, funerals, title bestowals, church dedications — that call the wider aiga together, often from overseas as well as across the islands. Families contribute money, fine mats ('ie toga), and food, reflecting mutual obligation and support.

Fine mats, woven from pandanus leaves over months or years, remain among the most treasured items a Samoan family can give or receive, especially at weddings and funerals, where their exchange signals respect between families.

- tamā — father
- tinā — mother
- fanau — children
- tuagane — brother (said by a sister)
- tuafafine — sister (said by a brother)
- uso — sibling of the same gender
- 'aiga potopoto — the whole extended family, gathered together

## Everyday Staples

Samoan cooking centres on what grows and swims nearby: taro, breadfruit ('ulu), bananas (fa'i), coconut (popo), fish (i'a), and pork (pua'a) appear in some form at almost every meal.

The umu, an earth oven of hot volcanic stones, is still used to cook whole meals — taro, breadfruit, fish, and pork wrapped in banana or ti leaves — especially for the Sunday to'ona'i, a large after-church family feast.

Palusami, young taro leaves filled with coconut cream (often with onion or corned beef) and baked in the umu, is one of the most iconic dishes served at any large gathering.

# A Simple Recipe: Oka I'a

Oka i'a is Samoa's version of raw-fish salad, closely related to dishes found across the Pacific, and a favourite at family gatherings.

## Ingredients

- Fresh raw fish (such as tuna), diced
- Juice of 3–4 lemons or limes
- 1 small onion, finely diced
- 1 cucumber, diced
- ½ cup coconut cream
- Chili and salt, to taste

## Method

1. Toss the diced fish with the citrus juice and a pinch of salt; chill until the fish turns opaque.
2. Drain off most of the citrus juice.
3. Fold in the onion, cucumber, coconut cream, and chili.
4. Chill briefly and serve cold.

Koko Samoa, a rich drinking chocolate made from roasted, pounded cacao beans, is another household staple — often served for breakfast alongside pani popo (soft coconut buns) or panikeke (Samoan doughnuts).
